Cardboard Transformers

FROM BOX TO ART

Take everyday cardboard boxes and use your imagination to shape them into action figures and expressive sculptures that seem to come alive!

This hands-on workshop invites imagineers to design, sculpt, and produce one-of-a-kind characters using recyclable materials, unlocking new dimensions of personality and play.

Sebastian "Baste" Cacho, an Industrial Design graduate at UP Diliman, is an artist who has been specializing in intricate crafts made from discarded boards, paper, and recyclable materials. His passion for crafting began in childhood, and he has continued to explore and develop his skills in this field.
